

COMMUNITY OF ST. JOHN

Founded in Switzerland in 1975 by the French Dominican Father Marie-Dominique Philippe, the Congregation of St. John is already present in 22 countries on all five continents and numbers nearly 1,000 Brothers (and Priests) and Sisters. With a special desire to respond to Christ's cry of thirst for souls on the Cross, the Community strives for a life centered in the pursuit of Wisdom: the Truth about God and man at its highest level. With three houses in the United States, the Community has a special love for young people and desires to help the Church reach out to them as part of the New Evangelization, especially by providing the context for their authentic personal growth and formation in the Catholic Faith.

UNIVERSITY OF MARY

When the Benedictine Sisters of Annunciation Monastery founded what is today North Dakota's only Catholic university, they placed their small college under the patronage of Mary, the Mother of God. The Sisters' hope was that generations of students would find inspiration in the beautiful wisdom and courage of the maiden from Nazareth. Today, more than 50 years later, the University of Mary is a flourishing university of approximately 3,000 students, offering more than 50 undergraduate degree programs, 10 master's degree programs, and a Doctor of Physical Therapy. U-Mary is among the most affordable private colleges and universities in the nation and, with a new campus in Rome and a rigorous Catholic Studies program, we are taking our place in the New Evangelization!
